

Zigime - connecting people to the world.

Zigime.com is a newcomer to the social networking arena. Picking up where most of the present social networking sites have left off, Zigime.com has many unique features and one that's especially cool - the Friend Manager feature will be a welcome relief for the many members who love to collect hundreds of thousands of friends and then be able to search and sort by age, gender and location.

Zigime can be an excellent way for friends and family members to stay in touch. Encouraging friends and family members to join zigime with you can help you to stay in better contact with these individuals. Communicating through zigime is a lot of fun and gives users the ability to post pictures, audio, video, jobs, events, mail, classifieds and barter in addition to personal information presented in a blog even on free accounts.

Visiting the ZigiMe websites of your friends, and can also help you to meet more interesting individuals on Zigime. Those who you already consider to be friends likely share some of your interests. Many internet users feel free to express their opinions online than they do in face to face meetings. They are more likely to be interested in attending your meeting if it takes place in a public location because they will feel more comfortable. Friends who have wonderful relationships through zigime may find their relationship falters when they actually meet in person.

ZigiMe can also be used to make business Networking. The search feature can be used to find others who share your business interests, dreams and goals. Zigime help you build your business by generating professional business leads and referral systems. ZigiMe provide barter services, you also create new business contacts and references. ZigiMe barter helps you find what you need and barter services!" News and advice for job seeker. Search your jobs in friend networking site. Search by Category, Experience, Keyword, and location.

My friends My World are a new way to organize showing my friends and overall users. The friends map on zigime.com is a feature offering powerful, user-friendly mapping technology to see where all of your friends are located around the world.

With the My Friends My World, you'll enjoy the following unique features:

Find your friends - By clicking on any country on the map, you'll be taken to their locations on the map. It shows male friends, female friends and both separately in the list box You can also click on any of the user to see which friend is where. Not only friends even all people who have joined in zigime.

* zigime is a worldwide friendship network.
